Meopham School: Student Support

The House System

We have a House System which encourages a sense of belonging in our students. There are four houses: Brunel, Newton, Redgrave and Holmes. Each House is divided into small Tutor Groups, which ensure a strong teacher/student relationship.

The Pastoral System

Our pastoral system has been created to help staff quickly and proactively identify and address any barrier to student learning and achievement.

Learning Leaders are on hand to constantly monitor the academic progress and achievement of their students through the assessment and reporting system. By liaising with the Curriculum Leaders, Heads of Houses and Tutors, the Learning Leaders can ensure that students are making exceptional academic and personal progress.

The Heads of House and their Tutors support students with regards to academic target setting, behavioural, social and emotional issues, as well as attendance and the student rewards system. In addition to this, we have a highly regarded team of Pastoral Support Leaders who help both in school and in liaison with home.

Gifted

We identify potential high achievers early on and set challenging targets to help them develop. Teaching staff then monitor their progress to ensure they can meet their full potential.

Talented

We have students with outstanding talents in many fields including sport, drama and music. Staff are trained to identify students with special talents relating to their subjects and ensure that their school experience is tailored towards capitalising on these areas.

Special Educational Needs

We have a strong team of Learning Support Staff, who work closely with students needing additional support in order to ensure that they make good progress and can thrive in a mainstream secondary environment.

The Windmill

We have a specialist resource base for students with a Statement of Special Needs that carries a primary need of ASD. The admissions of those students who access the resource base is managed through Kent County Council.
